

Return Path Certification Footprint

How many mailboxes do we cover? A lot! Hundreds of domains equal millions (even billions of mailboxes). Safe senders get improved delivery to 300 million inboxes. Certified senders receive improved delivery to over 1.3 billion inboxes. Here is the full list of ISPs, spam filters and other receiving entities.

ISP or Filtering Technology	Certified level	Safe level
North America and/or Global	1.3 billion inboxes	300 million inboxes
